We have recently reported that K-252a, an inhibitor of Src tyrosine kinases, induces apoptosis in rat pancreatic stellate cells (PSCs). The present study was performed to clarify the role of caspase-8 in K-252a-induced apoptosis in human lung epithelial cells. A549 cells, human lung epithelial adenocarcinoma cells, were treated with K-252a. Cell viability was assessed by MTT assay. DNA fragmentation was observed by the TUNEL method. Flow cytometric analysis was performed to measure the release of cytochrome c, the expression of Bcl-2, Bid, and Bax, and cleavage of caspase-3, caspase-8, and caspase-9. K-252a treatment resulted in dose-dependent decrease in cell viability and DNA fragmentation. Flow cytometric analysis revealed that K-252a treatment induced a decrease in the mitochondrial transmembrane potential, which was attenuated by a pan-caspase inhibitor, Z-VAD-fmk. In addition, K-252a treatment resulted in the release of cytochrome c into the cytosol, which was dependent on the activation of caspase-9. Furthermore, K-252a treatment resulted in cleavage of caspase-8 and caspase-3. These results suggest that caspase-8, but not caspase-3, plays a central role in the caspase cascade in K-252a-induced apoptosis in A549 cells.Q: iOS - Customizing Scroll View thumb I want to customize the thumb image used in the UIScrollView. I want to build it with a UIImageView and a UIImageView. The image I want to use as thumb is the second image on this post. The thumb isn't a perfect circle, but an oval with a rounded corner. I've read a lot and found no easy way to do this. I've got the two UIImageViews done with a GridView to display a perspective effect

FILE PHOTO: A box truck with the label "Made In Mexico" is seen inside the loading area at the container terminal of Pacific Container Terminal in Los Angeles, California U.S., August 8, 2018. REUTERS/Kyle Grillot Magna said in a statement it could take advantage of the supply volume and pricing offered by the Mexican and Canadian governments if the finalization of government regulations and political negotiations were successful. The company would not disclose the price of the vehicles in a preliminary agreement with the governments, but would compare it to the current market prices and talk to suppliers to set the price. It would also need to make alterations in the production line to meet the specifications of the government. It will take time and Magna will need to go through the correct legislation processes 1cb139a0ed
