Jan 15, 2018 I got the english version of the game. It's just the english translation that is working for me but I can't make any voice interactions. I've got a couple of voices for the character. The question of how to structure a business that rewards creativity while meeting society's expectations has started to put the weight of business on the shoulders of the original social purpose. This is why we have a new cinema. The place where moviegoers can go to watch a film they have not paid for is, in a word, commercialised. The name of the film that François Truffaut gave to a childhood fairytale that he loved is *Huitre* (
