"All files I put in this app will be converted automatically" -- NCH Switch.Q: Converting a jQuery list to a plist Given a list of elements, which can contain children elements and which I would like to convert to a plist, in the way of the following: one two Which should turn into: one one two two Is this possible in jQuery? How do I know whether the list contains children before going ahead? Thanks! A: I'm not sure if this is what you are looking for, but I don't think there is a jQuery plugin to do this. However, you could use DOMParser to create a parser and this question: Convert HTML to text with jQuery A: if (\$('#list').children().length > 0) { var plist = []; \$('#list > li').each(function(i) { var k 3e33713323
