The standard version of Windows 7 Ultimate is designed to be used with a removable USB flash drive, however, the USB flash drive can be installed on any computer that supports USB. It's described here: “In the grand scheme of the military, it’s kind of a small voice. But it really was a small voice that was a big microphone,” said James Franklin, executive director of the ACLU of Northern California. About two months ago, a San Diego man was arrested at his home in Camp Pendleton after discovering that his time as a volunteer in the nation’s largest marine mammal protection program had been logged by the U.S. Department of Defense. The man, identified by the ACLU as a former Pentagon employee, donated about \$8,000 over eight years and was deployed to the Galapagos, Marine Mammals, in the Pacific region, where he helped protect albatrosses in the Galapagos and worked as a volunteer visitor guide at Isla Baltra. For the past several years, Tim Haythornthwaite, a former special operations training officer, has been on a mission to help people who have been affected by military service. Haythornthwaite ran a series of online forums called Transitioning Out of the Military, and he founded the military-to-civilian transition program, Moving On Up, in 2013. He has worked with veterans who come back to civilian life, and the program has served more than 600 participants.
