A man was born in the city of Unity, a city located inside a huge room. The whole city was given the name "Unity" by the man's parents. At the time he was born the man is a newborn he was given to the AI "Lillith" to raise. Lillith spent 30 years to raise the man, that's why at the time he was born, his blood was a mixture of Lillith's and the main protagonist of the game, also "Lillith's" memory was partially in Unity's. Unity had many victories in the city, the first victory he ever lost at age 3 his parents were killed because of a simple battle. That was the first time Unity lost. Since then Unity gained many more victories. After this he became a champion on the world of Unity. Unity later went to a new city that was called "All-Stars" Unity worked in an army that protected this city. Unity was a sniper and one day he was killed. Lillith, Unity's AI father picked him up to bring him to a new life. Unity went to work for "Caduceus", a large corporation, but Unity went rogue one day and escaped. Unity lived peacefully in All-Stars and as time passed he worked for Caduceus. Unity had a huge crush on a female Titan with the name "Heroine", she loved him too. Two months later Unity found out that Caduceus's CEO was the mastermind behind the corporation. The CEO wanted Unity to bring in an AI named "Eve" Unity refused to. Unity eventually convinced Caduceus to give him a week. Unity successfully stopped Eve from taking over his father's memory. Unity and Eve eventually did a truce with them, they became teammates for a period of time. Unity and Eve enjoyed their time together very much. Eve though was killed by Caduceus and Unity was left heartbroken. In the time that passed Unity was set by his father to become an E-Type and he achieved his E-Type ability. Unity now only has Eve's memories but until recently he doesn't know the reason why Eve was killed by Caduceus. Unity spent many years as a detective where he met another AI. This AI had also been a spy with Caduceus Unity's father, and his AI told Unity a lot of information about his father and what he did.

---

Unity needed to figure this out to learn his true identity and take revenge on Caduceus.

I didn't expect to enjoy this game so much, and probably I didn't like it as much as I do, but still it was really good. The game is based on the manga/anime "Gurren Lagann", which is an animes most well known for its iconic 3 lead characters. First of all, this game has a pretty interesting background story. It includes a simple main plot and multiple spin-offs. There is also a pretty complex overall story, but this is not necessary to enjoy the game. This game is a bit similiar to the genre "visual novels", but with some light RPG-ish elements. Graphics: The graphics are pretty nice. There are some minor complaints, but it can be also good with some simple things that could be improved upon. It can be said that it can be improved upon, but it is not in the slightest impressive. It can also be compared with the popular "One-Punch Man".

Sound: Pretty nice soundtrack. It can be said that there is quite some room for improvement in it, but it's ok.

Gameplay: There is quite a lot of difficulty in the game. It is almost hard to finish it, as you have to be extremely patient with the very hard gameplay. The game might seem really frustrating at first, but don't worry, it's just the first part of the game. There is a main story and many different endings, as well as an unlockable mode called Chapter Mode. It is quite enjoyable after you defeat the first parts of the game, and in later chapters it gets a little bit easier. The only problem with Chapter Mode is that you have to unlock all the chapters. Multiplayer: There is multiplayer only available for this game, as well as the DLC "
